IKE - PROMOTION, RETENTION, AND ACCELERATION OF STUDENTS

A fixed set of criteria shall be used to determine promotion from one grade or level to another. In general, the well-being of the individual student and the well-being of the group shall be the determining factors.

Retention shall be used sparingly. When considering retention of a student, the teacher shall confer with the students parents/guardians well before the end of the school year if retention is being considered. The teacher then may recommend retention when it is clear that the student will profit.

The School Director shall review each individual case before approving retention.
