IGA - CURRICULUM DEVELOPMENT

Ongoing curriculum review is necessary to meet the needs of students. Successful curriculum development is a cooperative enterprise involving all impacted staff members, carried out under the leadership of the Director, and using multiple resources. Carefully conducted and supervised experimentation for curriculum development also is desirable.

The curriculum shall include a program of instruction based on and designed to enable students to meet Waldorf curriculum standards and Colorado Academic Standards.

The Board expects the faculty and administration to regularly evaluate curriculum instruction additions to the instructional program.

All teachers have professional obligations to continually work on MSCS curriculum development. It is expected that all lead teachers will contribute.
